PART I.

Remission of half the Jodi and half the Irrigation Cess.

No. R. 1150-60—L. R. 41-16-8, DATED 1ST AUGUST 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. A. C. 1222, dated the 19th May 1917, from the Revenue Commissioner in Mysore, submitting for the orders of Government, the recommendation of the Deputy Commissioner, Shimoga District, for the remission of half the jodi, half the irrigation cess, notice fee and interest for years 1905-06 to 1914-15, amounting in all to Rs 76-7-0 in respect of the Inam lands (wet) in the Singere village, belonging to the Malesankara temple in the Harnahalli hobli, Kumsi Sub-Taluk, on account of the failure of water-supply to the lands due to the breach of the tank in 1905-06.

Order No. R. 1150-60—L. R. 41-16-8, dated 1st August 1917.

In submitting the recommendation under the rules for the grant of remission of half wet assessment on lands below breached tanks, laid down in Government Order No. 9792-800—Cir. 214, dated the 5th March 1890, the Revenue Commissioner observes that the jodi on the lands in question is only a fourth of the assesssment thereon, and adds that, in his opinion, Government No. Camp 20-30, dated the 30th May 1909, which does not authorize the remission of cesses, should be held to apply to the case of irrigation cess also.

2. As the Government Order of 1890, authorizing the remission of half the wet assessment under breached tanks, does not specifically restrict the concession to unalienated lands only and as the principle on which such remission is granted applies to Inam lands also, Government are pleased to direct that half of the jodi on the Inam lands in question be remitted under the aforesaid order.

3. In the Government Order of 30th May 1909, referred to by the Revenue Commissioner, it is laid down that *local* cess should not be remitted in consequence of the remission of wet assessment. "Irrigation Cess" being, however, distinct from local cess, the prohibition with regard to the remission of the latter cannot apply to the case of the former also. Half the irrigation cess may therefore also be remitted.

4. The remission of interest and notice fee is within the discretion of the Deputy Commissioner and may be disposed of accordingly.

Village Improvement Allotment for 1917-18.

No. R. 1193-203—L. R. 12-16-214, DATED 2ND AUGUST 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ AGAIN—

Government Order No. R. 12236-46—L. R. 15-15-207, dated 22nd June 1916, sanctioning the Village Improvement allotments for 1916-17 and extending till the end of 1916-17 the concession of sanctioning one-half the cost of Village Improvement Works by way of grant-in-aid, on the villagers contributing the other half in cash or labour.

READ—

Correspondence ending with letter No. C. 4625, dated 3rd July 1917, from the Revenue Commissioner in Mysore, forwarding statements received from the Deputy Commissioners of Districts, regarding the Village Improvement allotments required for their districts for the year 1917-18.

Order No. R. 1193-203—L. R. 12-16-214, dated 2nd August 1917.

As recommended by the Deputy Commissioners, the marginally noted amounts are allotted for Village Improvement Works in the districts concerned during 1917-18. The balance, out of the Rs. 1½ lakhs provided for the purpose in the current year's budget, will be kept as reserve to be drawn upon in case of necessity.

Setting up of Stone Post or Slab at the Junction of Roads.

No. R. 1899-1907—L. R. 12-17-9, DATED 20TH AUGUST 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. R. 1899-1907—L. R. 12-17-9, dated 20th August 1917.

Government consider it necessary that wherever new village roads or cart-tracks take off from the existing main roads, a stone post or slab should be set up at the junction indicating the name of the village to which the road leads.

2. In some places this has already been done on the initiative of the local officers but to ensure that this work is systematically attended to throughout the State in a uniform manner, Government are pleased to issue the following instructions for information and guidance:—

(1) Every Amildar and Deputy Amildar should first prepare a list showing all the places in his taluk or sub-taluk, where such stone posts or slabs are required and submit a copy of the same to the Deputy Commissioner.

(2) He should then invite the co-operation of the Village Committees within whose jurisdiction such places lie, and get the work done with their aid.

(3) A Quarterly Progress Report should be submitted to the Deputy Commissioner.

(4) The Revenue Commissioner is requested to submit a report to Government after the lapse of a year as to how far the above instructions have been carried out.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No C 3104, dated 7th June 1917 from the Revenue Commissioner in Mysore forwarding a copy of his Office Memorandum No C 3101—G L of 1916 17, dated 6th June 1917, reviewing and consolidating the budget estimates of receipts and expenditure for the year 1917 18 under the Irrigation Cess Fund, received from the Deputy Commissioners of Districts (Accompaniment No I)

2. Letter No 6407, dated 21st June 1917, from the Chief Engineer of Mysore, forwarding the aforesaid estimates with a copy of his office note thereon (Accompaniment No II)

3 Correspondence ending with letter No 870—L A D 47 dated 16th July 1917, from the Comptroller to Government stating that the balance to the credit of the General and the Ordinary Fund as intimated to the Revenue Commissioner in his office letter No 9625—L A D 1145, dated 17th May 1917, *viz*, Rs 4,91,000 was only an estimate of probable balance on 1st July 1917 and that the correct balance on that date cannot be intimated as the accounts for 1916-17, have not yet been closed (Accompaniment No III)

	Rs
*General Fund	2,32,000
Ordinary Fund	2,59,000
Total	4,91,000

Order No. R 2256-66—L R 514-16-5, dated 28th August 1917.

Estimated receipts.—The estimated receipts of the several districts for the year 1917-18, according to the Revenue Commissioner's figures, are Rs. 2,88,983 as against Rs. 2,76,863 in the previous year as detailed below:—

District	Estimate for 1917 18	Estimate for 1916 17	Difference (+ or—)
	Rs	Rs	Rs
Bangalore	27,454	27,434	+ 20
Kolar	39,274	39,274	..
Tumkur	39,708	36,564	+3,144
Mysore	46,566	46,566	.
Hassan	29,402	29,498	— 96
Shimoga	66,534	60,977	+5,557
Kadur	25,795	22,345	+3,450
Chitaldrug	14,250	14,205	+ 45
Total ...	2,88,983	2,76,863	+12,120

2. To the above figures must be added the opening balance of Rs. 4,91,000* as per Comptroller's estimate and the sums of Rs. 21,017, Rs. 6,729, Rs. 6,608 and Rs. 46,877 being the contributions from the State Funds, towards the maintenance of the river channels in the Mysore and Hassan Districts and of the Marikanve channels in the Chitaldrug District and towards the cost of establishment, tools and plant respectively. The probable total receipts for 1917-18, thus stand at Rs. 8,61,214 or in round figures Rs. 8,61,200 as against Rs. 7,28,000 for the preceding year.

	Rs
*General Fund	2,32,000
Ordinary Fund	2,59,000
Total	4,91,000

3. *Estimated expenditure.*—The following errors noticed in the statements should be corrected as indicated below:—

(i) The total expenditure under "Major tanks"—"New Works" in the Kadur District works out to Rs. 4,635 and not Rs. 5,135 as put down.

(ii) The sum of Rs. 3,420 on account of the cost of establishment, tools and plant in that district should consequently be reduced to Rs. 3,330 and the total expenditure for the district put down at Rs. 21,830 instead of Rs. 22,420.

(iii) Again the Revenue Commissioner's figures representing the cost of maintenance of the river channels in the Mysore and the Hassan Districts and of the Marikanve channels in the Chitaldrug District debitable to the Irrigation Cess Fund should, as pointed out by the Chief Engineer, be altered into Rs. 31,524, Rs. 10,094 and Rs. 9,912, respectively, as under the Government Orders Nos. R. 2399-409—L. R. 633-15-4, dated 28th August 1916, and No. R. 6311-14—L. R. 280-16-4, dated 19th December 1916, only 60 per cent of the cost has to be charged to this fund.

4. Compared with the figures of the last year, there is an increase of Rs. 5,900, Rs. 4,576, Rs. 4,484, Rs. 2,832, Rs. 1,406 and Rs. 236, respectively, in the proposed expenditure in the case of the Kolar, Mysore, Kadur, Shimoga, Chitaldrug and Tumkur Districts, while in that of the Bangalore and Hassan Districts there is a decrease of Rs. 18,408 and Rs. 1,211 respectively.

5. The ordinary expenditure proposed in the Bangalore, Kolar, Mysore and Chitaldrug Districts exceeds the 75 per cent limit laid down in Government Order No. R. 2157-68—L. R. 630-13-4, dated 12th September 1914, but no explanation is forthcoming in the case of the former two districts. The excess is specially conspicuous in the case of the Kolar District. Explanations should invariably be given in cases of sudden or abnormal rise or fall of expenditure.

6. *Sanctioned budget.*—The accompanying statement shows the budget as provisionally sanctioned by Government. Orders will issue as regards the source from which the excess expenditure of Rs. 47, 401 detailed in column 12 of the statement has to be met, on receipt of intimation from the Comptroller regarding the exact opening balance to the credit of each district on 1st July 1917, under the ordinary fund and the balance under the general fund.

7. The Chief Engineer is requested to issue instructions to the Executive Engineers to furnish Deputy Commissioners with an account of the actual expenditure incurred, the works on which it was spent, etc. A para should be devoted in the Revenue Administration Report to the Irrigation Cess Fund and the above information incorporated therein.

8. Government observe that the rules prescribed in Government Order No. R. 2157-68—L. R. 630-13-4, dated 12th September 1914, for the preparation of the Budget Estimates and working the Cess Fund regarding apportionment to works in districts and taluks (Rules 2, 3 and 4) are not being strictly adhered to. This should invariably be done as far as possible and full reasons given for any deviations that may be found necessary. If rules require any modification, a separate report embodying suggestions may be submitted before preparation of the next budget.

Total	1 14,935	48,920	30,545	15 000	85,884	2,95,284	53,151	3,48,435

The amounts proposed for expenditure in the Tumkur, Hassan, Shimoga and Kadur Districts are less than 75 per cent of the estimated receipts for those districts. The excess expenditure in the Bangalore, Kolar, Mysore and Chitaldrug Districts over 75 per cent of the receipts is as noted in the margin The excess in the Mysore and Chitaldrug Districts is due to the heavy burden of meeting the cost of maintaining the channels in those districts. The excess in the Bangalore and Kolar Districts being slight may be met from the General Fund A total grant of Rs 3,48,435 may be made out of the funds for expenditure during the year.

ACCOMPANIMENT III.

Letter No. 870—L. A. D. 47, dated 16th July 1917, from the Comptroller to the Government of His Highness the Maharaja of Mysore, to the Secretary to the Government of Mysore, Revenue Department.

Adverting to your letter No. R. 136—L. R. 514-16-3, dated 7th July 1917, regarding the balances at the credit of the ordinary Irrigation Cess Fund and General Irrigation Cess Fund on 1st July 1917, I have the honor to state that the balance intimated to the Revenue Commissioner in this office letter No. 9625—L. A. D. 1145, dated 17th May 1917, was only an estimate of probable balance on 1st July 1917, as detailed in the margin.

General Irrigation Cess Fund ... 2,32,000
District Irrigation Cess Fund ... 2,59,000

2. The correct balances on 1st July 1917 cannot be intimated now, as the accounts for 1916-17 have not yet been closed.

READ—

Letter No. 300, dated 11th July 1917, from the Conservator of Forests, recommending the grant of an advance of Rs. 500 to be placed at the disposal of the Deputy Commissioner, Mysore District, so as to enable him to make advances to certain selected Forest Panchayets at Rs. 100 each in order to ensure proper working of the forests during the current year, and stating that the amount may be recouped from the Panchayets later on.

Order No. R. 1644-53—Ft. 17-17-2, dated 14th August 1917.

The management of Village Forests having been entrusted to Panchayets, Government cannot find funds for them.

2. It must be clearly understood that unless the Panchayets raise fees under the rules, they cannot incur any expenditure.

3. As Village Forest Panchayets are not under the control of the Forest Department, the Deputy Commissioner, Mysore, should have addressed the reference in question to the Revenue Commissioner.

Refunds and Renewals of Spoilt or Useless Stamps.

No. Fl. 1021-9—S. R. 16-17-1, dated 29th August 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Circular Order No. 5081-92—107, dated 9th August 1890, directing that all applications for refunds of the value of spoiled or useless stamps in which the period prescribed by the General Stamp Act, 1879, for such refunds is exceeded, should be submitted to Government, provided that the application is made within one year from the date of purchase of the stamp or from the date on which the stamp has been spoiled or rendered useless.

Order No Fl. 1021-9—S. R. 16-17-1, dated 29th August 1917.

Under Chapter V of the Mysore Stamp Regulation, 1900, as amended by Regulation II of 1908, and Regulation IV of 1916, provision is made for the renewal or refund of stamps spoiled or rendered useless, or which, for any reason, are not required by the possessor, on the condition that applications for such renewal or refund shall be made within two months from the date of the instrument in cases coming under Section 49, clause (*d*), para 5, and in other cases within six months from the date on which the stamp was spoiled, or on which it was rendered useless, or on which it was purchased.

2. Instances have occurred in which this limit has operated as a serious hardship. Without any fraudulent motive, holders of spoiled or useless stamps are sometimes unavoidably prevented from applying for refund or renewal within the prescribed period, and so cannot, under the provisions of the Regulation, obtain any relief. In such cases subject to the proviso contained in the order read above, an order of Government is necessary before the refund can be sanctioned. For the future, Government are pleased to empower Deputy Commissioners of Districts to deal with applications for refunds or renewals of spoilt or useless non-judicial stamps, provided that the application is made within two years from the date of purchase of stamps or two years from the date on which the stamps were rendered useless. All applications for refund made after two years should be submitted to Government for orders.

3. In all such cases, the party must adduce satisfactory evidence to prove that the failure to apply for relief within the prescribed period was due to unavoidable circumstances.

Report on the Administration of Jails and Lock-ups.

No. J. 727-39—PRIS. 60-16-4, DATED 27TH AUGUST 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 677-91-07, dated 5th May 1917, from the Inspector-General of Prisons in Mysore, forwarding a Report on the Administration of Jails in Mysore, for the calendar year 1916.

Order No. J. 727-39—Pris. 60-16-4, dated 27th August 1917.

The total number of admissions of prisoners of all classes during the year 1916 as 9,857 was against 10,256 and 10,464 in the two previous years. Including the number in confinement at the end of 1915, the prison population amounted to 11,082, of whom 9,819 were discharged during the year. The daily average, however, slightly rose from 1,244·84 to 1,260·20.

2. The number of juvenile convicts admitted during the year was 15 being 4 less than in the previous year. Having regard to the very small number of juvenile criminals, Government do not consider it necessary to establish a reformatory, but they would, in this connection and in connection with the larger number of short-term convictions referred to in the report, invite the attention of the Magistrates once again to the provisions of Section 562 of the Code of Criminal Procedure under which the number can be still further reduced.

3. Government are glad to observe that the number of offences committed by the convicts has fallen from 408 to 246 in the year under report.

4. *Classification of prisoners.*—It is reported that for want of suitable accommodation the habituals could not be separated from the casuals and that a separate building for the exclusive confinement of the habituals is necessary. The question may be carefully investigated and suitable proposals may be submitted for the consideration of Government at an early date.

5. The gross expenditure of the year under report excluding cost of buildings and repairs carried out by the Public Works Department amounts to Rs. 1,10,178-5-11 as against 1,06,237-2-11 in the previous year. The excess is reported to be due to a great extent *to the increased rate of pay* drawn by the Superintendent, Central Jail, and the increase in all the items except that under "Diet charges." The explanation is not very clear. The net cost of maintenance has, however, increased from Rs. 72-5-2 to Rs. 75-7-3 per head and is about Rs. 10 more than the net cost per head of average strength in the Madras Presidency. The net cash earnings are Rs. 15,092-8-2 against Rs. 16,211-13-0 in the previous year. Government observe that the income is capable of further improvement, and the Superintendents are directed to pay particular attention to this matter.

6. The Inspector-General urges the desirability of the construction of a new Central Jail with extensive grounds outside the Municipal limits in preference to the improvement of the existing buildings which are unsuitable and inconvenient and involve a large recurring expenditure on repairs. Specific proposals in this matter will be awaited by Government.

7. The Chief Engineer is requested to see that the improvements of the Jail buildings in Mysore ordered by Government in their letter No. 1145-5561, dated 8th June 1916, are taken up immediately and completed.

8. The Comptroller will be requested to examine the accounts maintained in regard to the industries carried on in the Jails and submit for the consideration of Government his suggestions for their improvement.

9. The Inspector-General of Prisons is requested to mention in his report in future, the results of the inspections of the Jails made by him during the year.

10. Government note that the administration of the Department was fairly satisfactory. Greater attention is required to bring the Jail industries up-to-date and make them more profitable. Separate orders will be issued by Government on the subject at an early date.

Administration Report of the Bangalore City Municipality for the year 1915-16, received with letter No. 149, dated 31st October 1916, from the President, Municipal Council, Bangalore City.

Order No. 1361-7—Ml. 103 16 39, dated 29th August 1917.

Constitution of Municipal Council.—The two *ex-officio* memberships of the Executive Engineer, Bangalore Division, and the Amildar, Bangalore Taluk, were abolished and there were thus during the year one *ex-officio*, eleven nominated and twelve elected Councillors.

2. *Meeting and attendance.*—Eighteen meetings were held, of which 12 were ordinary, 1 adjourned and 5 special, and the attendance of both official and non-official Councillors was satisfactory

3. *Election.*—A general election in September 1915, and a bye-election in February 1916 (for filling up a casual vacancy in the 7th Division) were held. 1,583 out of 2,474 voters, or 64 per cent in the former and 181 out of 432, or 42 per cent in the latter, took part and all the seats opened for election were duly filled up.

4. *Committees.*—Government are glad to note that the Managing Committee met 34 times during the year and disposed of a large volume of important work, and the other Committees constituted for various activities in the City also did useful work during the year.

5. *Demand, Collection and Balance.*—The total demand including arrears under all items, except octroi, was Rs. 4,23,850, of which 2,99,743 or 70·5 per cent was collected, Rs. 13,514 or 3·5 per cent remitted and Rs. 1,10,593 or 26 per cent remained uncollected. The major part of the arrears is reported to be departmental contributions awaiting adjustment. No explanation is given for the delay in the adjustment of such items. Leaving them out of account, the actual arrears were Rs. 73,891 against Rs. 66,274 of the previous year, showing an increase of Rs. 7,617. The attention of the President has been invited to this in Government Order No. 3361-79—Ml. 56-16-2, dated 27th November 1916. A Deputy Amildar has since been entertained by the Municipal Council to supervise more effectively the work of the collection of arrears, and the current demand. It is hoped that the balance will be reduced soon. The special report called for by Government in their Order No. 1323-6—Ml. 192-15-6, dated 14th August 1916, may be expedited.

6. As regards the special sanitary cess, Government observe that there is no need to consider the arrears separately as it is now merged in the half-yearly demand for rates and collected by the Municipal Council through its collection staff.

7. The President is requested to report the amount of arrears due up to date to the Municipality on account of Land Revenue and Cesses thereunder assigned to it.

8. *Incidence of Taxation.*—The incidence per head of population was Rs. 3-3-7 while it may be interesting to observe that it was Rs. 3-7-0 in the adjoining Civil and Military Station.

No. 1361-7—Ml. 103-16-39, dated 29th August 1917.

9. *Financial position.*—There was increase in receipts under all the principal items of Municipal revenue. The balance at the credit of the Municipality at the end of the year was Rs. 1,67,129, in addition to the fixed deposit of Rs. 75,943 in the Bank of Mysore.

10. *Public works.*—The Engineering establishment of the Municipality was revised, the pay and prospects of the executive staff having been improved, besides increasing the numerical strength.

11. The total expenditure amounted to Rs. 1,04,989 including the establishment charges of Rs. 8,852. The major portion of the public works carried out was the repair and the up-keep of the roads and lanes of the Municipality. Some new roads and lanes also were opened during the year. It is reported that in anticipation of the new drainage scheme further expenditure on new drains has been considered undesirable. The existing drainage system should, however, be maintained efficiently. The opening of the slums and improving lanes and roads received the attention of the Municipal Council during the year.

12. It is also reported that the system of letting on contract the supply of road materials for three years has been introduced recently. It is hoped that the new system will work well. The result of its working may be briefly noticed in future reports.

13. A new extension near Gavipur was formed consisting of 80 sites which have all been sold. Some of the purchasers are reported to have formed themselves into a Building Co-operative Society and the progress in the construction of the houses has been satisfactory.

14. *Education.*—The total cost incurred by the Municipality for the Municipal and aided schools in the City was Rs. 6,482.

The Municipality also paid a monthly grant-in-aid of Rs. 25 to the Oriental and mixed Library at the Srinivasa Mandiram. The Municipal Council have also resolved to open branch Libraries in the City and Extensions.

15. *Hospitals and Dispensaries.*—The Unani and Ayurvedic Indigenous Hospitals of the City were subsidized as in the previous year, at a cost of Rs. 600 and a monthly contribution of Rs. 200 to the St. Martha's Hospital was also continued to be paid.

16. *Vaccination.*—Vaccination continued to be compulsory. The number of cases vaccinated was 5,256 against 3,560 in the year previous, the percentage of successful cases being 84·4 against 81·34 in 1914-15.

17. *Public health.*—Public health was good on the whole, except for the prevalence of plague and small-pox for a portion of the year in certain parts of the City and Extensions. The highest number of deaths from plague was recorded in January 1916, the lowest being in November 1915. The number of persons inoculated was 79 against 1,099 in the previous year. The decrease has not been explained.

18. The report on the investigations regarding the malarial survey of the Bangalore City for 1915-16 has been recorded and the President requested to continue the work further in Government Order No. 4995-7—Ml. 156-16-2, dated 2nd February 1917.

19. *Vital statistics.*—The registered birth and death rates for the year were 38·2 and 33·08, respectively, per mille. There were 735 deaths among infants under one year of age against 716 in the previous year.

20. *Sanitation and conservancy.*—The expenditure incurred under this head is Rs. 38,669. The Municipality also maintains, for short periods in the year, temporary staff for clearance of lantana and rank vegetation.

21. *Avenue trees.*—The report is meagre on the subject of avenue trees. A para should be devoted to it in future reports showing the work done during the year, and the income and expenditure on this account.

22. *Audit of accounts.*—The President reports that the accounts for 1914-15 were audited by the Local Audit Section of the Comptroller's Office during the year and that the Comptroller has not yet sent the audit note.

No. 1561-7—ML 103-16-39, DATED 29TH AUGUST 1917.

Government observe that there has been avoidable delay in the audit of the accounts of the Municipality and that belated audit reports serve no useful purpose. The attention of the Comptroller will be invited to this defect. It is hoped that the two years' accounts yet unaudited will be completed soon and the audit report forwarded to Government.

28. *General.*—The thanks of Government are due to Rajasabhabhushana Dewan Bahadur K. P. Puttanna Chetty, C.I.E., President of the Municipal Council, for the efficient administration of the Municipality during the year.

Central and District Recruitment Committees.

No. G. 2886-908—Mily. 60-17-5, dated 31st August 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. G. 2886-908—Mily. 60-17-5, dated 31st August 1917.

The Government of India are of opinion that the future and potential demands on the man-power of the country cannot be met by recruitment at the existing rate, or without some special effort to improve the present organisation. They have, therefore, decided to appoint a Central Recruiting Board to advise them in regard to such matters, and in particular,

(*a*) to consider the requirements in military personnel of every description, combatant and non-combatant, and how these requirements can best be met;

(*b*) to consider how the quotas required can be best distributed among the several provinces;

(*c*) to co-ordinate all recruitment so as to ensure that the demands for military services shall conflict as little as possible with essential industrial and economic requirements;

(*d*) to scrutinise closely the progress of recruitment and to consider schemes for meeting necessary or potential demands for recruitment in regard to which the present system may seem inadequate; and

(*e*) to ensure in short that the prosecution of the war is not hampered by any avoidable deficiency in man-power.

2. The Government of His Highness the Maharaja have also had under consideration the question of concerting suitable measures for obviating the difficulty reported to have been experienced in filling up the vacancies in their Imperial Service Troops at the front and they consider that the active co-operation of the Revenue authorities and the general public in Mysore is necessary in the matter.

3. In order to consider the schemes necessary to meet the Local and Imperial demands in this respect, the Government of His Highness the Maharaja have decided to appoint a Central Recruitment Committee at Bangalore on which the following gentlemen will be invited to serve as Honorary members:—

PRESIDENT.

Rajasevadhurina M. Kantharaj Urs, Esq., B.A., C.S.I., First Member of Council.

The Deputy Commissioners will be the Presidents of the District Committees.

6. Deputy Commissioners are requested to render all assistance possible in the matter to the Central Committee and to distribute the number of recruits required from their districts among the several taluks.

7. The Chief Commandant is requested to make arrangements to place one military officer and two or three men under the orders of each Deputy Commissioner to help the civil authorities in obtaining recruits.

8. The kind and classes of recruits required, their pay and prospects and the concessions that would be shown to them, etc., are shown in the appendices to this order.

9. The expenditure during the current year on account of bonuses to recruits and rewards, etc., to persons bringing in recruits for the Mysore Army, which is hereby sanctioned at the rates shown in the appendices, is estimated to amount to about Rs. 50,000. OFFICIAL MEMORANDUM.

The accompanying Notes of Inspection by the Dewan, during his tour in the Chitaldrug District in the month of April last, are circulated to Heads of Departments and the Deputy Commissioner of the Chitaldrug District, for information and favour of necessary action.

2. As will be seen from the itinerary printed on the previous page, the tour lasted about 16 days. The Deputy Commissioner and the principal District officers accompanied the Dewan throughout. All the taluk headquarter towns and a number of villages were inspected in the course of the tour.

3. In every taluk headquarter town visited, a meeting of the representatives of the taluk was held by previous arrangement and every important representation made by the people was discussed and noted. Requests preferred during visits to other places in the taluk have also been taken into consideration. All the representations received and the wants and defects noticed, which seemed worthy of attention, are included in the notes and classed as *major or minor* according to degree of importance and urgency.

4. The object of bringing together the representations and the needs of a taluk is to ensure that every one of them is thoroughly investigated and finally dealt with by the officers responsible or by Government. Under this procedure, no subject included in the notes is liable to be put aside until some definite decision or order is recorded, and intimation given, to the people interested, of the action taken.

5. Certain essential statistics are published along with the notes pertaining to each taluk to give an idea of its general condition.

6. The following instructions are laid down with regard to the action to be taken on these notes:—

(*a*) The Deputy Commissioner will classify the items in the first instance by Departments, and himself deal with those which fall within his competence and that of the District Officers under his control. The other items may be transmitted to the Heads of Departments concerned for necessary action. Whenever the Head of a Department takes over the entire responsibility for dealing with a question in direct communication with Government within a reasonable time, a statement to that effect may be communicated by him to the Deputy Commissioner and Government for their information.

(*b*) Every item included in the notes should be fully investigated and the result, with recommendations for practical action, should be submitted to the authority concerned or to Government in accordance with the usual procedure in such cases. Every item should be pursued to a final stage and an order of disposal placed on record.

(c) A half-yearly report should be furnished by the Deputy Commissioner before 15th July and 15th January every year, showing the number of subjects disposed of and the progress made with regard to the remainder. The submission of this report should not be discontinued until all the subjects are properly dealt with.

Similar statements should be furnished by the Heads of Departments in respect of the items for which they are responsible.

7. Copies of these notes, excluding the portions relating to departmental matters and office inspections which are treated as confidential, should be supplied to the members of the Representative Assembly and members of Municipal and District Boards in the district and also to members of the District Committee of the Economic Conference.

The Amildars concerned may be supplied with spare copies and held responsible for distribution as above.

8. It is hoped that all persons interested in the disposal of the questions dealt with, and the development of the taluks generally, will study the questions and co-operate with Government officers, as far as possible, with a view to obtaining an early decision or ensuring early practical action.

Government Order No. C. 23, dated 18th September 1892, accepting at the favourable rate of 5 per cent interest per annum a deposit of Rs. 12,000 in the Government Treasury by Polepalli Subbaiya Setty of Bangalore offered by him for securing a permanent income for the chattram constructed by him near the Bangalore City Railway Station to feed deserving caste students and indigent travellers.

2. Government No. 333-5—Muz. F. 22-92, dated 25th September 1894, accepting a further deposit of Rs. 18,000 from Meenakshiamma, widow of Polepalli Subbaiya Setty referred to in the Government Order read above for furthering the object of his charities at the same rate of 5 per cent interest as allowed on the original deposit.

3 Government Order No. 118-20—Muz 22-92, dated 15th July 1902, authorizing Mr. Chinnasami Setty, son-in-law of Polepalli Subbaiya Setty to draw the interest on the total deposit of Rs 30,000 half-yearly for utilization towards the up-keep of the charities and laying down certain conditions.

4. Letter dated 11th May 1917, from Mr. B. Chinnasami Setty, sowcar, Bangalore City, stating that he is prepared to deposit a sum of Rs 20,000 in the Government Treasury in addition to the sum of Rs 30,000 referred to in the Government Orders read above with a view to improve the usefulness of the chattram in the cause of the spread of higher education among poor and deserving Brahmin and Vaisya students, and requesting sanction to the payment of interest at 5 per cent per annum on this sum of Rs. 20,000 also.

Order No. 2156-60—Edn. 58-17-3, dated 29th August 1917.

Mr. Chinnasami Setty says that as the number of boarders has increased to 35, of whom 15 are Brahmin students and 15 Vaisya students, the interest of Rs. 125 per mensem now realized on the deposit of Rs. 30,000 is not sufficient, and he has come forward with an additional endowment of Rs. 20,000 with the object of placing the charities on a satisfactory and solid basis, the annual interest of Rs. 2,500 being spent for feeding deserving Brahmin and Vaisya students pursuing higher studies.

2. Government are pleased to accept the additional endowment of Rs. 20,000 and sanction payment of interest thereon at 5 per cent per annum for a period of five years. This rate of 5 per cent interest is subject to alteration at the end of five years, but it will not be less than the rate admissible under Government Order No. 473-503—G. F. 15-09-2, dated 15th July 1909, *viz.*, ½ per cent more than the rate allowed by the Government of India on similar endowments.

3. The disbursement of the interest will be half-yearly as before and the specific conditions referred to in the Government Order, dated 15th July 1902, read above should also be adhered to.

4. Government appreciate the generous spirit of Mr. Chinnasami Setty.

Schedule of Depressed Classes.

Depressed Classes—

Holeya, Madiga, Lambani, Vodda, Koracha, Korama, Hill tribes, and Animists.

5. The distribution of the total of one lakh of rupees among the various stages of education, as approved by Government in their Order, is shown in the appended Schedule No. I and shall be observed until further notification by Government.

Distribution of Grant according to Grade.

6. In accordance with the Government Order, scholarships in the Third, Fourth and Fifth grades shall be allotted to the various districts and taluks of the State in the proportion of the total population of the Backward Classes in each area concerned.

No. 2200-50– Edn. 42-17-39, dated 29th August 1917.

The appended Schedule No. II shows the distribution of these scholarships among the eight districts of the State. It shall be subject to revision from year to year, due notification being given. It shall be the duty of the District Committees to further distribute the scholarships of the Fourth and Fifth Grades among the taluks in the proportion of the total population of the Backward Classes in each taluk area.

Principle of allotment in districts and taluks

7. The sum of Rs. 15,000 reserved for the exclusive benefit of the Depressed Classes shall also be allotted to the various districts and taluks in the proportion of the total population of the Depressed Classes in each area concerned.

The appended Schedule No. III shows the distribution of scholarships for the Depressed Classes among the eight districts of the State. It shall be the duty of the District Committees to further distribute these scholarships among the taluks in the proportion of the total population of the Depressed Classes in each taluk area.

8 Scholarships of the First Grade, tenable in the University classes, shall be administered by the University Council; scholarships of the Second Grade, tenable in the Pre-collegiate or University Entrance class, by the Central Education Committee of the Economic Conference; scholarships of the Third Grade, tenable in the High School classes, by the District Committees; and scholarships of the Fourth and Fifth Grades, tenable in the Fourth and Fifth standards of an English Lower Secondary School and the Fourth and Fifth standards of a Vernacular Lower Secondary School, as also the special scholarships for the Depressed Classes, by the Taluk Progress Committees

The Administrative Bodies

In the Government Order of 8th May 1917, District and Taluk Committees are empowered to appoint Sub-Committees for the purpose of selecting suitable scholars such Sub-Committees to include representatives of the Backward Classes and of important educational institutions in the area.

(*g*) To receive from Headmasters periodical reports of the progress of all scholars and exercise supervision and to discontinue a scholarship whenever a scholar's progress is not satisfactory, or for any other proper reason.

B —Supervision.

(*a*) To distribute the scholarships allotted to the district for the Backward and Depressed Classes among the taluks in the proportion of the total population of these classes in each taluk area;

(*b*) To re-appropriate and re-allot, if thought desirable, any amounts which may have lapsed in any taluk area;

(*c*) To report to the Central Committee not later than the end of August on the first allotment and use of the scholarship grants within the district.

(*d*) To present to the Central Education Committee an annual report on the working of the scheme in the district not later than the end of March in each year.

Functions of Central Education Committee

11. The functions of the Central Education Committee shall be:—

A —Administration.

(*a*) To notify all recognised High Schools and the Public that an award of scholarships of the Second Grade will be made on a given date;

(*b*) To issue application forms for candidates to the Headmasters of High Schools;

(*c*) To award scholarships to the most deserving candidates;

(*d*) To publicly notify the award in all recognised High Schools and in public journals;

(*e*) To assist selected candidates in obtaining admission into the Pro-Collegiate or University Entrance Classes;

(*g*) To receive from the Headmasters of Collegiate High Schools periodical reports on the progress of all scholars and exercise supervision and to discontinue a scholarship whenever the scholar's progress is not satisfactory, or for any other proper reason.

B —Supervision.

(*a*) To prepare a schedule of communities eligible for scholarships under the scheme and to revise it, conformably to the Orders of Government, from time to time on the basis of the Mysore Census Reports;

(*b*) To allot scholarships among the several districts in the proportion laid down by the Government Order;

(*c*) To submit from time to time recommendations to Government respecting the number, value and duration of scholarships in each grade;

(*d*) To re-appropriate and, if thought desirable, to re-allot amounts which have lapsed in any district, reports from the District Committees to be sent in not later than the end of August in each year;

(*e*) To receive and consider the reports of the District Committees upon the working of the scheme in each district;

(*f*) To obtain information from the University Council respecting the allotment and use of the sum put at their disposal for scholarships of the First Grade;

(*g*) To draw up and submit to Government before the end of April in each year an annual report upon the working of the entire scheme throughout the State.

General Instructions.

12. (*a*) It is a general instruction to all the Committees administering this scheme that care shall be taken to secure that the selected candidates are deserving of encouragement on the double ground of merit and poverty. The certificates provided by the Headmasters of the various educational institutions should be considered carefully in making awards, and every endeavour should be made not only to assist pupils but also to encourage teachers and institutions, even village schools, to bring forward promising and deserving scholars in increasing numbers.

(*b*) Since it is one of the main objects of the scheme to draw deserving pupils from the villages and out-lying parts where the higher educational facilities do not exist, not more than 25% of the scholarships in the Fifth and Fourth Grades shall be awarded to candidates who are resident in the taluk headquarter town; and not more than 25% of the

scholarships of the Third Grade shall be awarded to candidates who are resident in the district headquarter town.

(c) It has specially to be noted that the annual report for the taluk should be submitted to the District Committee not later than the end of February, and that the annual report of the District Committee should be submitted to the Central Committee not later than the end of March. The General Report on the working of the entire scheme will be prepared before, and considered at, the meeting of the Central Education Committee at the end of April.

(d) The normal maximum duration of a scholarship will be determined by the normal length of the course of study Thus scholarships of the Fifth and Fourth Grades will be usually for a term of two years, being the time within which a boy should pass through the Fourth and Fifth Standards of a Vernacular or English Lower Secondary School Similarly the Third Grade scholarships are for a term of three years, corresponding to the Fourth, Fifth and Sixth Forms of a High School, and the Second Grade scholarships will be granted for a term of one year only, being the period assigned for the Pre-collegiate or University Entrance Class

N B—As a rule, scholarships should not be continued beyond the maximum duration indicated above—provided that special reasons, such as sickness, for failure to complete the course with the prescribed time, should be taken into account, and that, if due cause can be shown, the scholarship in any grade may be continued for one extra year.

It has been assumed in the foregoing examples that a student receives his scholarship at the beginning of the educational stage. Of course, if he is awarded the scholarship in the middle of a stage, its duration will be correspondingly decreased For instance, a boy who has passed the Fifth Form of a High School will be awarded a scholarship for one year only, sufficient to enable him to complete the High School course in the Sixth Form. It has also been assumed that the student remains in one school throughout the stage. Change of school may lead to the discontinuance of the scholarship owing to the Committee's inability to effect a transfer

READ—

Letter No 1739, dated 13th June 1917, from the Superintendent of Sericulture in Mysore, suggesting the desirability of introducing a special class of scholarships of Rs 20 per mensem with a view to attract better class of young men for undergoing training in Sericulture.

2. Letter No. 13, dated 3rd July 1917, from the Secretary to the Mysore Economic Conference, submitting for sanction certain proposals of the Superintendent of Sericulture recommending the revision of scholarships awarded to students for undergoing training in the Sericultural Central School.

Order No. 1063-5—A. & E. 40-16-11, dated 1st August 1917.

It is reported that the existing rates of scholarships, *viz.*, Rs. 8, per mensem for the 1st quarter of the course, Rs. 10 for the 2nd quarter and Rs. 12 for the 2nd half-year of the course are not sufficiently attractive with the result that the better class of men are shut out from the Department. With a view to ensure the development of the Sericultural Industry on proper lines, it is considered necessary to encourage the recruitment of men with better general qualifications than are possessed by candidates now admitted into the Department, and to attain that object the following three classes of scholarships are proposed.

Class 1.—Four special scholarships of Rs. 20 per mensem each for one year open only to candidates who have passed at least the School Final Examination.

Class 2.—Six ordinary scholarships as shown hereunder, open only to candidates who have a satisfactory knowledge of English and have passed at least the Lower Secondary Examination in English.

Rs. 10 per mensem for the 1st quarter of the school course.
Rs. 12 per mensem for the 2nd quarter of the school course.
Rs. 15 per mensem for the 2nd half-year of the practical course in the farm or school.

Class 3.—Five ordinary scholarships, same as the existing ones, open to persons who have only a fair knowledge of the vernacular. The total cost of the scheme is computed at Rs. 2,526 a year as detailed below :—

Class	Number of scholarships	Rate	Period for which tenable	Rs.	Cost
		Rs.			Rs.
1	4	20	One year	...	960
2	6	10	Three months	... 180	936
	6	12	Three months	... 216	
	6	15	Six months	... 540	
3	5	8	Three months	... 120	630
	5	10	Three months	... 150	
	5	12	Six months	... 360	
					2,526

The above proposals are sanctioned for a period of one year, in the first instance.

No. 1063-5—A. & E. 40-16-11, DATED 1ST AUGUST 1917.

The suggestion to advertise for candidates in regard to classes 1 and 2 and select the best four of the former class and the best six of the latter after a competitive examination in English Composition, Arithmetic and Translation is approved. The question of the appointments to be offered to the candidates in receipt of the special scholarships will be reserved for consideration after the completion of the present course of training.

The cost of the scheme will be met from the provision made for scholarships in the Sericultural budget for 1917-18.

A bond should be executed by each candidate to serve in the Department, if so required, for a period of at least three years.

2. Letter No. 139, dated 14th July 1917, from the Secretary to the Mysore Economic Conference, forwarding for orders a copy of letter No. 147, dated 10th July 1917, from the Secretary, Agricultural Committee, reporting that the Horticultural school in the Lal-bagh was closed on 11th April 1917, and recommending, at the instance of the Committee, the re-establishment of the Horticultural school in Lal-bagh from the beginning of August 1917, on the lines indicated below.

1. The tutorial staff to consist of a Horticultural Instructor on Rs. 60 and an Assistant Horticultural Instructor on Rs. 30 a month.
2. The course to be of two years, the curriculum being fixed by the Managing Committee as constituted in 5, *infra*.
3. Twelve scholarships of Rs. 10 each to be instituted, each District Committee being allowed one candidate and the Agricultural Committee selecting four.
4. The selections to be made on the result of the examination in subjects to be fixed by the Managing Committee later on, the standard being equal to the Lower Secondary Examination. The District Committees and the Agricultural Committee to retain the discretion to except any candidate of the cultivating classes from the operation of this rule.
5. The control of the school to vest in a Managing Committee, consisting of—

   Dr. L. C. Coleman,
   Mr. M. Subbiah,
   „ L. Bishtopanth Badami,
   „ N. Rama Rao,

   and the immediate supervision to be entrusted, as heretofore, to the Superintendent, Government Gardens.

Order No. 1540-53—A. & E. 24-17-2, dated 14th August 1917.

The proposals of the Committee are sanctioned. The cost during the current year will be met by reappropriation from the Committee's budget and the balance from the budget of the General Conference.

A monthly contingent grant of Rs. 10 is also sanctioned.

Encouragement of Cocoanut Cultivation in the State.

READ—

Letter No. 4985, dated 27th March 1917, from the Secretary to the Mysore Economic Conference, forwarding for orders a copy of letter No. 2022, dated 21st March 1917, from the Secretary, Agricultural Committee, submitting the Resolution of the Committee on the improvement of cocoanut cultivation in the Tumkur District.

Order No. 2181-94—A. & I. 200-15-4, dated 29th August 1917.

The loans granted under the existing Takavi Loan Rules are limited to Rs. 200, and are repayable in one year. The Committee are of opinion that this concession is not sufficient in the case of persons intending to start cocoanut cultivation, as a large outlay is required and no return can be expected within a period of six years. They therefore recommend that (1) the limit of the loan may be raised to Rs. 1,000 and that the period of repayment be made to commence from the seventh year in ten equal annual instalments and (2) that a Government nursery for supplying cocoanut seedlings be opened at a central place under the management of the Agricultural Department with arrangements for giving advice and assistance to persons engaged in cocoanut cultivation. Government are of opinion that there is no necessity for opening a nursery managed by Government as suggested.

2. The Agricultural Department and the Agricultural Committee should encourage private enterprise in this respect and if any special concessions are deemed necessary, suitable proposals may be submitted to Government.

3. Government direct that the amount of loan to be granted for the purchase of cocoanut seedlings and other purposes connected with cocoanut cultivation be raised to Rs. 500 and made repayable in three years after the seventh year. The Takavi Rules will be suitably modified.

Government Order No. G. 1531-80—G. M. 151-14-1, dated 15th August 1914, placing Mr K. R. Srinivasiengar on Special Duty in connection with the compilation of a Statistical Atlas and District Hand Books for the Mysore State.

Order No. 1820-70—A. & I. 47-15-28, dated 23rd August 1917.

In their Order read above Government directed the compilation of a Statistical Atlas for the State and placed Mr. K. R. Srinivasiengar on Special Duty in connection with the work. The compilation was completed and published under the title of "Statistical Abstract of the Mysore State" in the month of May 1915.

2. The Statistical Abstract contains information from the year 1881-82 up to the end of 1913-14, and furnishes an idea of the progress made by the State during the space of about thirty years since the Rendition.

3. Government consider it desirable that the publication should be periodically revised so that the information contained in it may be brought up-to-date from time to time. They consider that for the present it would be enough if such revision is done once in three years.

4. They are accordingly pleased to direct that the revision of the abstract be undertaken at once and that the next revision be done under the direction of the Secretary to Government, Education and Agriculture.

5. The revision of the Statistical Abstract and the preparation of the Atlas should be completed by the end of December 1917.

6. As the illustration of administrative and economic statistics by means of charts and graphs is likely to be very useful in rivetting attention on the salient facts conveyed by figures, Government are also pleased to direct that a Statistical Atlas be prepared as an adjunct to the Abstract.

7. A small temporary establishment at a cost not exceeding Rs. 150 per mensem may be entertained for a period of three months for the purpose. The period may be extended to six months if found absolutely necessary.

8. Heads of Departments and other officers concerned are requested to render all necessary help in collecting and compiling the information required for the revision of the Abstract as well as in the preparation of the Atlas.

9 Government Order No. 9060-9102—G. M. 401-16-1, dated the 2nd January 1917, sanctioning, among other things, the appointment of six Probationers for Commerce

Order No. 1090-140—I. & C., 48-17-1, dated 1st August 1917.

It is more than four years since the Department of Industries and Commerce was constituted and during that period it has undertaken the investigation of several industries and furnished advice and assistance to the people of the State and stimulated to a considerable extent private industrial enterprise, chiefly in connection with the use of machinery for dealing with agricultural products. In the department itself the manufacture of sandalwood oil on a commercial scale has been undertaken, a weaving factory has been established and a few experimental industries, such as, power driven crushing mills, jaggery manufacture, etc., have been started. Sanction has also been accorded for starting the manufacture of soap and buttons on a commercial scale, under departmental control.

2. Government have defined the general principles according to which State aid may be rendered to industries (*vide* Government Order No. 4038-54—A. & I. 138-14-8, dated the 12th February 1916). But with the exception of loans for industrial and commercial purposes the concessions have not been taken advantage of, to any appreciable extent, by private individuals and concerns.

As regards commercial work the Department now publishes a quarterly statement of rail-borne trade statistics in the State. An Industrial Survey was undertaken at the instance of the Industries and Commerce Committee, but the information collected requires to be revised and brought up to date. A Central Depot has been organized at Bangalore, with a view to develop the arts and crafts of the State. A Chamber of Commerce has also been started. A scheme for forming a Central Industrial and Commercial Museum and similar Museums in

Districts has been sanctioned. The Department has also encouraged enquiries from merchants and given them advice and assistance when required. Liberal concessions have been offered to merchants to travel abroad and collect information of commercial value. Steps have also been taken for the development of industrial, technical and commercial education in the State.

3. A Special Officer has been appointed for the investigation of Forest Industries. The Department has been receiving assistance from the Indian Institute of Science in dealing with a few chemical and mineral industries. A Local Committee of Research has been recently appointed for conducting experiments on a small scale.

An Assistant and two Probationers have been appointed specially for commercial work in the Department and the question of appointing more probationers is under consideration.

4. In the Government Order constituting the Department of Industries and Commerce the industrial and commercial portions of the work have been separately indicated but no special attention could be devoted to the latter owing apparently to want of a special staff and adequate establishment. Government have therefore decided to constitute for the present a separate branch in the Director's office to deal entirely with questions relating to commercial development in the State, the collection and publication of commercial and industrial statistics and the maintenance of an up-to-date bureau of information. The Commercial Section of the Director's office will be placed under a separate officer to be designated Assistant Director in charge of Commerce and Statistics who will be primarily responsible for all commercial work including the development of joint stock enterprise and the accurate compilation of all trade statistics in the State, under the general control of the Director. This appointment will be counted against that of an Assistant Director on Rs. 500- -50—800, already provided in the scale of establishment of the Department. In addition to this, an establishment consisting of an Assistant and six Probationers has already been sanctioned for the Department, the cost of which amounts to Rs. 10,800. Provision has now been made for additional clerical and menial staff at a cost of Rs. 2,184 for the commercial work of the Department. An expenditure of Rs. 2,200 has at present been sanctioned for the publication of statistics of rail-borne trade. The provision will be raised to Rs. 7,000 to meet the cost of additional establishment and other expenditure to be incurred for the collection and publication of complete trade statistics. A sum of Rs. 3,000 has been provided for preparation of forms of accounts and other preliminary work connected with the development of joint stock enterprise.

5. After due consideration of all the requirements of the Department, Government have decided to make a provision of Rs. 2,75,770 in the current year's budget for the operations of the Department. Of this the cost of establishment for both the Industries and Commerce Sections will be Rs. 1,12,670 as against the provision of Rs. 1,09,500 in the previous year's budget. The rest of the expenditure will be chiefly for investigation, experiments and pioneering of industries. The total amount provided for commercial work including cost of establishment is Rs. 28,984.

6. With a view to ensuring systematic and continuous attention to all important branches of work the activities necessary for the proper development of Industries and Commerce in the State are classified under ten groups and the subjects that should receive special attention under each group are indicated in a statement appended to this order (Appendix A). The list of industries given under each group is not exhaustive and additions and alterations may be made thereto from time to time as investigations develop. The work to be done under each group will be divided into two classes, *viz.*, (i) the more important items selected for immediate attention and (ii) less urgent ones to be included in a reserve list and kept under investigation as far as possible. The responsibility of each officer in the department in respect of work assigned to him should be defined and a continuous record of progress maintained. In the case of items of work, the primary responsibility for which rests with other departments or agencies, the Director of Industries

and Commerce is expected to keep himself in touch with the general progress of the work and to be rendering such assistance as may be necessary from time to time.

7. Appendix B to this order generally indicates how the amounts may be distributed under the ten heads.

The question of organising a Central Industrial Workshop and establishing District Workshops in order to provide expert supervision and assistance in the erection and repair of machinery and plant is engaging attention separately. A provision of Rs. 10,000 has been made for District Workshops and necessary arrangements will be made to provide funds required for the Central Industrial Workshop when the scheme is approved by Government.

The provision of Rs. 18,500 is intended to meet the initial and equipment cost of the Central Commercial Museum at Mysore exclusive of the cost of machinery, grants-in-aid towards District Museums and the development of the Industrial Depot.

8. A special provision of Rs 11,000 has been made for the development of rural industries during the year. A sum of Rs. 1,000 will be placed at the disposal of the President of each District Committee to enable him to adopt suitable measures for the development of rural industries in the district. The amount will be utilised after a proper scheme has been formed and approved by the Central Committee. The balance of Rs. 3,000 will be utilized by the Director in conducting experiments, purchasing models of improved appliances and undertaking necessary investigations for the general improvement of rural industries. The Director is requested to take necessary action in the matter in consultation with the Industries and Commerce Committee and the Deputy Commissioners of Districts.

9. Whenever it is not possible to utilise the full amount under any of the specified heads, the balance may be appropriated with the sanction of Government for expenditure under other heads. As regards amounts provided for preliminary work in connection with large industries, such as forest, chemical and mineral, the amounts though provided in the budget of the Industries and Commerce Department should be transferred, as required, to the Committee or the Department that is actually engaged in the investigation as work develops. The Director of Industries is requested to submit proposals for the utilisation of the amounts in consultation with the officers concerned.

10. A statement showing the existing and sanctioned scale of establishment in the Industries and Commerce Department is given in Appendix C of this order. The Director is requested to make a suitable distribution of work and submit a statement showing the allocation for the sanction of Government.

11. All ordinary work should be done through the regular staff of the Department, but where any particular work attains temporary prominence sanction may be obtained to constitute the subject into a separate group and when necessary to appoint a Special Officer and staff to deal with it. The ordinary staff of the Department will be treated in the same manner as the staff in the Railway and the Electrical Departments, *viz.*, that in case they do not already hold permanent appointments in any other Department they will be treated as permanent employees of the Department on a non-pensionable basis. Whenever an expert is appointed for any specific work, one or more local officers should be associated with him to enable them to learn work. The Director will also be responsible to see that six men are kept constantly under training for industrial work and that facilities are afforded to the public to obtain the services of trained men when necessary.

12. Government observe that no outstanding results of importance are likely to be achieved unless all the agencies and the departments concerned with industrial and commercial developments in the State work in close co-operation and co-ordination. Attention is specially invited to the instructions issued in Government Order No. G. 1-54—G. M. 55-12-208, dated the 14th June 1913, as to the relations of the Departments and the Committees.

The functions of the Industries and Commerce Committee will consist in suggesting new industries, in carrying on preliminary investigations and enquiries in connection with the development and pioneering of industries, obtaining

expert advice whenever necessary and preparing final schemes for sanction of Government. After the schemes are sanctioned they will be entrusted to the Director for execution. Whenever schemes for new industries are prepared by the Director or are suggested by private enterprise, and in all cases in which financial assistance of any magnitude is recommended, the Industries and Commerce Committee will ordinarily be consulted by Government before final orders are passed. In the case of industries pioneered by Government, a Board consisting of members of the Industries and Commerce Committee appointed by Government will be associated with the Director to assist him in the management of the concerns. The Committee will also be consulted with regard to all schemes relating to industrial education and administer special scholarships sanctioned by Government for industrial education and manual training.

13. The Industries and Commerce Committee will be requested to examine the existing rules regulating State aid to industries and report in what respect they need improvement or expansion. The Director should arrange for the preparation of a complete handbook showing the possibilities of industrial enterprise and openings for industrial and trade development in the State.

14. The Director is requested to submit for record in consultation with the Industries and Commerce Committee and the allied Departments a list of subjects that will be selected from each group for action and investigation during the next quarter, together with a responsibility sheet showing the work to be done, officers responsible for each of the items and fixing a time limit wherever possible.

15. The Director is now submitting every quarter a report on the working of the Department together with a statement of loans and hire purchases sanctioned during the quarter. The report should be amplified so as to indicate progress made under each head of activity in the Department and be accompanied by a detailed statement explaining the financial position, *i.e.*, receipts and expenditure of every concern under the control and management of the Department A separate balance sheet should be submitted to Government in respect of each such concern at the end of every half year. Suitable forms of accounts should be prepared for each concern in consultation with the Comptroller and copies forwarded to Government for information by the end of September 1917.

16. A monthly progress report of work done under each head may be obtained by the Director from the officers concerned and scrutinised and reviewed by him and the information incorporated in the quarterly report submitted by him to Government. In the case of work to be carried on in association with other Departments the Director should arrange to obtain information once a quarter and submit the same to Government with his remarks.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 5199-201—I. and C. 10-16-97, dated the 8th January 1917, ratifying the appointment of Messrs Whiffen & Sons, as Agents for the sale of sandalwood oil in the United Kingdom till the end of June 1917.

2. Letter No. 135, dated the 15th July 1917, from the Director, Sandalwood Oil Factory, recommending the acceptance of the terms offered by Messrs. Whiffen & Sons, for continuing the Agency.

3. Government Order No. 2116-20—A. & I. 80-15 57, dated 11th September 1916, raising the power of the Director to enter into contracts for the sale of oil, conferred in clause 6 (m) of para 1 of Government Order No. 983-7—A. & I. 80-15-47, dated 31st July 1916

Order No. 1398-1402—I. & C. 10-16-127, dated 9th August 1917.

Having regard to the present disturbed conditions of the market and difficulties in shipping oil, Government are of opinion that any arrangements to be made at present should be liable to termination at any time after notice without assigning any reasons. Government are therefore pleased to sanction the following arrangements for the sale of sandalwood oil in the United Kingdom.

(i) Messrs. Whiffen & Sons will continue as Government Agents and all sales of Government oil in London will be effected through them. The terms of the agency will be 2½ per cent commission and one per cent brokerage, if necessary, according to custom in the case of foreign transactions. The factory will be at liberty to supply wholesale purchasers buying ex-factory direct or through their agents. Local sales should be encouraged as much as possible.

(ii) The agency will be liable to termination notice at any time provided that all contracts in force on the date of the receipt of the notice for delivery to the agents will hold good.

(iii) Messrs. Whiffen & Sons will be bound to send a monthly account of all consignments of oil received by them and furnish at the end of each month detailed accounts in forms to be prescribed by the Director showing the total quantity of oil received by them, the quantity sold, the prices realised, the amount credited and the amounts outstanding with dates. The understanding with Messrs. Whiffen & Sons should be clear as to regular payments for all transactions.

2. In order to create a continuous demand for the maximum output of the two factories and prevent accumulation of stock, Government are anxious that the local and Eastern markets should be taken advantage of as much as possible. The output to be consigned to London through Messrs. Whiffen & Sons should be limited only to such quantities as could be safely sold in the London Market. The Director is requested to make necessary arrangements for establishing separate agencies for sale in India and in the Far East. Whenever agencies are established, definite rules should be prescribed with the approval of Government, regarding the supply and the form of accounts, the question of payment on delivery or on invoice, and charging of interest in case of delay in payment, etc.

3. With a view to afford greater latitude to the Director to enter into forward contracts in future, both locally and in London, Government are pleased to modify Government Order No. 2116-20—A. & I. 80-15-57, dated the 11th September 1916. A monthly rate at which the oil is to be sold will be sanctioned by Government

at the beginning of each month with reference to the market conditions on the reports sent by the Director and other information and the Director will have authority to sell half of every month's output subject to this minimum price. In the case of forward contracts, the total quantity that he may sell during a month should not exceed this limit and for the present the period should not exceed three months.

4. The Director is requested to refer to the Board the question of stopping the sandalwood auction sales this year for a final resolution in consultation with the Conservator of Forests. If the factory can guarantee the purchase of the total output of 1,800 tons and agree to pay within the budget year the full value of the wood according to the prices that the Government may fix, the sales may be stopped.

Paragraph 6 of Government Order No. C. 53-8—A & I. 80-15-3, dated the 30th October 1915, directing the constitution of a Board of Management for the Sandalwood Oil Factory, Bangalore.

2. Government Order No. 983-7—A. & I. 80-15-47, dated the 31st July 1916, as revised by Government Order No. 2116-20—A. & I. 80-15-57, dated the 11th September 1916, defining the functions of the Board of Management of the Sandalwood Oil Factory.

3. Paragraph 3 of accompaniment to Government Order No. 3171-4—I. & C 10-16-64, dated the 8th November 1916, regarding the monthly meetings of the Board and placing before that body for consideration monthly accounts and other matters including proposals for appointments, promotions, etc.

4. Paragraph 1 (*c*) of Government Order No. 3561-5—I. & C. 68-16-5, dated the 18th November 1916, reconstituting the Board and stating that it will exercise functions of an advisory character.

5. Paragraph 5 of Government Order No. 5269-317—I. & C. 94-16-3, dated the 11th January 1917, appointing Rao Saheb Mr. M. Rama Rao, Special Forest Officer, as an additional Member of the Board.

Order No. 1440-6—I. & C. 59-17-2, dated 10th August 1917.

With a view to consolidate all the orders relating to the functions of the Sandalwood Oil Board, the following revised rules are issued defining its constitution and functions:—

(1) The Board will consist of the following Officers:—

(i) The Director, Sandalwood Oil Factory.
(ii) The Financial Secretary to Government.
(iii) The Director of Industries and Commerce.
(iv) The Conservator of Forests.
(v) The Special Forest Officer.
(vi) Mr. C. Ranganatha Rao Saheb, who will also be Secretary to the Board.

(2) The functions of the Board will be of an advisory character and it will have no executive authority over the Director or the Factory.

(3) The Board should be kept in touch with the general course of business in the factory and all important developments. It will be entitled to make suggestions for the improvement and the development of the factory especially on its commercial side and bring to the notice of the Government any defects that should receive attention.

(4) The Board may advise the Director in all matters relating to the sale of sandalwood oil and any other purely commercial questions connected with the concern.

(5) The Board will meet regularly once a month, notice being issued for such meeting by the Secretary, the senior officer present at the time being the President of the Board.

No. 1440-6—I. & C. 59-17-2, DATED 10TH AUGUST 1917.

(6) At each such meeting a complete account will be rendered of the business done during the previous month and a monthly statement of accounts audited by the Commercial Auditor will be placed before them.

(7) All resolutions of the Board will be forwarded to Government through the Director within fifteen days but in case the Director differs from the Board he will not be bound to act on the resolutions until orders are received from Government.

(8) The Director should as far as possible unless the matter is very urgent consult the Board in all important commercial transactions relating to the factory and give them full information relating to the same when they have not been previously consulted at the monthly meetings. The Director will be bound to submit to Government the views of the Board if required by them in such cases.

(9) The Board will be entitled to inspect the working of the Factory and also the accounts of the concern whenever they think it desirable or necessary.

(10) Information required by any member of the Board will be supplied with the permission of the Director. If for any reason it is not considered expedient to comply with the request for any information, the matter will be referred to Government and their orders obtained.

2. A half-yearly report should be made to Government regarding the working of the Board.

4. Letter No. 6599, dated 28th June 1917, from the Secretary, Mysore Economic Conference, forwarding for orders of Government copy of letter No 5078, dated the 23rd June 1917, from the Secretary, Education Committee, explaining the work done by the Home Industries Institute, Bangalore, and recommending the continuance of the Bangalore Home Industries Institute

Order No. 1910-60—I. & C. 17-16-4, dated 24th August 1917.

The opening of a Home Industries Institute in Bangalore was sanctioned by Government in May 1916, but work was actually started in August last, when a detailed and comprehensive programme of work was considered and approved by the Education Committee, and a Managing Committee was appointed. Owing to the novel character of the experiment, some difficulties were experienced in the initial stage. A fair amount of useful work has, however, been done. Information has been collected regarding the Home Industries the introduction or development of which is likely to be most useful and arrangements have been made whereby the Institute may get into touch with a large body of home workers Government are therefore pleased to sanction the continuance of the Institute for another year with effect from 1st July 1917.

2. With a view to suggest improvements in the present methods of working of the Home Industries Institute, a Special Committee consisting of the following members, *viz.*, Dr. Coleman and Messrs. V. Rangasamiengar, K. R. Srinivasa Iyengar, B. K. Garudachar, M. Basavaiya, S. V. Setti and Rev. E. W. Thompson, was appointed by the Standing Committee of the Economic Conference and the report of that Special Committee is before Government. The subject was also discussed at the last Session of the Economic Conference.

3. After a careful consideration of the various suggestions made, Government are pleased to indicate generally, in the succeeding paragraphs, the lines on which the Home Industries Institute may in future be conducted.

The following recommendations have been made by the Special Committee in their report for improving the Home Industries Institute.

(*a*) That by the term "Home Industries" should be understood such subsidiary occupations as may be carried on in the home with small capital and simple appliances and are likely to add to the family income.

(*b*) That it should be the function of the Home Industries Institute to develop these subsidiary occupations as defined above, whether by giving training in them through classes carried on under the direction of the Institute or by assisting home workers to obtain materials and plant and to find a market for their products.

No. 1910-60—I. &. C. 17-16-4, DATED 24TH AUGUST 1917.

(*c*) That it should not be regarded as a part of the work of the Institute to provide manual occupation for, or to give industrial training to, boys and girls now attending school, since the general inculcation of the industrial habit should be undertaken, if at all, by the Department of Public Instruction, in connection with the schools maintained by it, and that no boys or girls actually attending schools shall be admitted into any of the classes maintained by the Institute.

(*d*) That the following occupations come within the definition of Home Industries and may be usefully taught in the Institute, the list being a tentative one, *viz.*—

1. Rattan work.
2. Toy-making.
3. Sewing and dress-making.
4. Wick, tape and handkerchief weaving, cotton and silk ribbon making.
5. Nakki and tinsel work.
6. Hand knitting and darning.
7. Crotchet, lace and embroidery.
8. Silk twisting and reeling and winding ball thread.
9. Mat weaving and basket work.

(*e*) That in view of the work which is now being done, or which is possible in the near future, the establishment of the Institute should consist of a Superintendent, an Assistant with such clerk or clerks and servants as are required and the Instructors of the classes directly maintained by the Institute who shall all of them be under the direction and control of the Institute Committee.

(*f*) That an officer of the standing and with the qualifications of the Superintendent of a Government Industrial School on a salary of from Rs. 100 to Rs. 150, would be competent to discharge satisfactorily the duties of the Superintendent of the Institute.

(*g*) That it would be one of the chief aims of the Institute to encourage classes teaching Home Industries which have been formed by voluntary associations or private individuals under proper guarantees of management and efficiency, and that in the case of such classes the amount of the grant-in-aid need not be confined to a maximum of Rs. 25 per mensem but should be determined by the nature and the requirements of the classes.

5. Government generally agree with the Special Committee in their views about the scope and object of Home Industries and that the Institute should concentrate its attention in the training of adults in some branch of industry or handiwork in order to increase their earning power. Government are, however, of opinion that the operations of the Institute need not necessarily be confined to the industries referred to in paragraph 4(*d*) above, but that the Institute may deal with all industries whether followed as principal or subsidiary occupations which are carried on in the home for producing saleable articles with a view to earn money by the sale thereof. The name of the Institute will be changed to the Cottage and Home Industries Institute.

6. Classes opened under the scheme will be confined to adults and the elements of practical training among school children should be diffused with the agency of the Education Department. Such children should be excluded from the operation of the scheme.

7. The working of the Home Industries Institute should continue to be kept distinct from that of the classes. In the case of the Institute, the accounts should indicate separately the expenditure incurred for experiments, propagandistic and educational work and that for the commercial portion of the work of the Institute. As regards grants sanctioned for the Home Industries classes, only amounts intended for the initial equipment may be paid in advance, the balance being disbursed in monthly instalments. Classes managed directly by the Education Committee or

the Bangalore Home Industries Institute should conform to the account rules and should not be treated as grant-in-aid institutions. The total provision made for the Home Industries Classes should be distributed proportionately among the cities of Bangalore and Mysore and the districts according to their requirements, a lump sum limit being fixed for each centre

8. In giving grants preference should be given to institutions maintained by voluntary Associations or private individuals who are able to give proper guarantees of management and efficiency and are also able to supplement such grants with contributions from other sources. The amount of the grant should, as proposed by the Special Committee, be determined by the nature and requirements of the classes, but no grant exceeding Rs. 500 per year should be sanctioned without the orders of Government.

9. The Home Industries Institute will be under a Committee of Management who will be responsible for the development of the work of the Institute on proper lines subject to the general control of the Education Committee. Suitable arrangements should be made for the periodical audit and publishing of accounts.

10. Separate sanction of Government should be obtained as regards staff and other requirements of the Institute. All appointments carrying a salary of Rs. 50 and above will be subject to the approval of the President of the Economic Conference.

11. Government desire that as regards the classes under the supervision of the Home Industries Institute as well as in other places, the Education Committee should at once proceed to attend to the following points and submit a report to Government of the action taken before the end of September 1917.

(i) Suitable rules should be framed for the sanction and disbursement of grants and grants-in-aid, maintenance of accounts and other details necessary for the proper administration of the funds placed annually at the disposal of the Committee for the purpose.

(ii) Definite curricula should be laid down for the classes so that progress in instruction may be checked and measured from time to time.

(iii) Proper arrangements should be made for the inspection of all the classes at least once in six months.

12. The appreciation of Government may be conveyed to the Members of the Special Committee for their practical suggestions.

Appeal No. 1 of 1916-17.

Appellant	*vs.*	Respondent
H. Ramanna, Superintendent, Government Industrial School at Chiknayakanhalli		Lakshmidevamma.

Subject.

Appeal against the Order No. 115, dated 4th February 1915, of the Deputy Commissioner, Hassan District, directing that the Archak baraward of Sri Subrahmanyeswaraswami temple at Ankanathapura near Hole-Narsipur, be made out in the name of Lakshmidevamma.

Order.

The case was finally heard by Government on 10th April 1917. The appellant was present in person, and the respondent, though served with notice, petitioned for an adjournment.

2. The appellant is a nephew of the deceased barawarddar and is entitled to a share of worship in the temple along with another nephew of the deceased barawarddar. It has been found by the lower Courts that the barawarddar and his two brothers were divided in interest. And it was in consideration of this fact that the name of the respondent who is a daughter of the deceased barawarddar was ordered to be registered by the Deputy Commissioner as one of the hissedars to the Archakship along with the appellant and his cousin.

3. So long as there is no rule or order to the contrary, the right of female heirs to succeed to Pujari Offices must be recognized and has been recognized by Government in not a few cases hitherto.

4. The Deputy Commissioner's Order is therefore correct and is accordingly confirmed. The appeal is dismissed.

Petition dated 18th May 1917, from Shroff Gopala Setti of Nagarthapet, Bangalore City, offering to invest a sum of Rs. 12,000 with Government under the Charitable Endowment Rules for the benefit of the Sri Venkataramanaswami and Mahishasuramardani temples at Nagarthapet, Bangalore, and the Sri Champakadamaswami temple at Bannerghatta, Anekal Taluk, at Rs 4,000 for each temple, and to utilize the interest thereon for the performance of the marginally noted services.

1. Venkataramanaswami Temple — "Rathothsava" in the month of February, *i e*, Magha Suddha Poornami
2. Mahishasuramardini Temple — "Rice decoration and feeding of Brahmins" on Durgashtami day.
3. Sri Champakadamaswami Temple — "Feeding of Brahmins" for three days from the date of "Rathothsava"

Order No. 489-92—Muz. 618-16-2, dated 27th August 1917.

The petitioner is prepared to invest only Rs. 3,000 at present, at Rs. 1,000 for each temple, the balance being promised to be added on, from time to time in even thousands, as money is realized from the business in which it is now invested, and prays for payment of interest at 5 per cent so long as interest at that rate is allowed on Savings Bank deposits.

2. Government are pleased to accept the offer of Mr. Gopala Setti and permit the deposit, under the Charitable Deposit Rules, of Rs. 3,000 in the first instance to be raised to Rs. 12,000 by addition of even thousands, the whole amount bearing interest at 4 per cent per annum.

3. In accordance with the decision of Government to concede temporarily for a period of five years a higher rate of interest at 5 per cent per annum in special cases, the higher rate will be allowed in the present case up to the end of July 1922.

4. The Deputy Commissioner, Bangalore District, will take the necessary action under the Rules IV and V of the Charitable Deposit Rules.

5. The petitioner prays for permission to draw the interest himself, during his life time and utilize it for the conduct of the services noted above and thereafter, the administration of the charities will be conducted by person or persons to be appointed by him in that behalf, under the general supervision of the Muzrai Department. He also wishes to reserve the right during his life time to add to or substitute other objects for the utilization of the funds, but with the restriction that the allotment of funds to the temples in question will remain unchanged. Government see no objection to comply with the wishes of the donor in these respects.

Order No. 517-25—Muz. 115-16-8, dated 29th August 1917.

In connection with a number of cases that have recently come up to Government for decision, it is brought to notice that in certain localities an objectionable practice prevails of leasing lands belonging to Muzrai institutions for indefinite periods, a course which is highly prejudicial to the interests of the institutions. This practice should be put a stop to at once and no leases should ordinarily be granted for more than five years at a time.

The Deputy Commissioners of Districts are requested to institute an enquiry into any indefinite leases that may now be current and take suitable action for renewing them for definite priods to the best advantage of the institution concerned.

A report on the action taken is requested at the end of the calendar year.

Petitioner	*vs.*	Counter-petitioners
Agent of Sri Uttaradi Matt.		(1) Haveri Venkata Madhvachar. (2) Haveri Jayaramachar, son of Haveri Krishnachar.

Subject.

Review petition No. 201, dated the 2nd August 1911, from the Agent of Sri Uttaradi Matt, praying for a reconsideration of Government Order No. 3556-8, dated the 27th February 1906, directing the restoration to the respondents, of the Sarvamanya village of Mudalodu in the Goribidnur Taluk belonging to the Sri Uttaradi Matt.

Decision.

The case was finally heard by Government on the 4th March 1915. The contending parties were present in person and were also represented by Advocates.

The Sarvamanya village of Mudalodu in the Goribidnur Taluk was granted as inam for the support of the Uttaradi Matt and was made over to Haveri Venkata Madhvachar and Haveri Krishnachar ostensibly in exchange for some lands belonging to them in Dhonji and other villages of the Bombay Presidency. At the inam settlement in 1871, the village was confirmed as inam to the Matt though the enjoyment of the grantees was also noted. In 1901, the village was temporarily attached pending enquiry into the alienation but the attachment was removed on the alienees producing some evidence that the alienation was for sufficient consideration. The Agent of the Matt now impugns the *bona fide* nature of the whole transaction and claims that the Dhonji lands belong to and were obtained by the Matt by gift.

On further consideration the Government are of opinion that there is no satisfactory proof either that the alienees had lands in Bombay which were exchanged for the village in question or that the Swami of the Matt had any right to alienate the property even for a valid consideration.

Under the circumstances, the Inam Rules of 17th November 1877 are clearly applicable and the village is liable to summary resumption. Out of consideration, however, for the alienees' long enjoyment, the Matt will be offered the choice of recovering the village on payment to the alienees of a reasonable compensation to be fixed by the Muzrai Superintendent with the approval of Government; in default of payment, the village will be subjected to full assessment and left in the possession of the alienee, the extra revenue being made over to the Matt as a cash grant.

Appeal No. 28 of 1916-17.

Agent of Sri Uttaradi Matt.		Haveri Jayaramachar.

Subject.

Review petition from the Agent of the Sri Uttaradi Matt praying for a reconsideration of Government Order No. 4202-3, dated the 27th March 1906, directing the restoration to Haveri Jayaramachar of the inam village of Thammagondanahalli in the Koratagere Sub-Taluk, belonging to the Sri Uttaradi Matt.

Decision.

The case was finally heard by Government on the 3rd March 1916. The contending parties were present in person and were also represented by Advocates.

Thammagondanahalli village, which was originally granted for the service of Sri Ramachandra Devaru of the Sri Uttaradi Matt, was, at the Inam Settlement of 1871, confirmed in the name of the Matt and for its support. It appears, however, to have been given to one Krishnachar in or about the year 1864-65 by the then Swami, ostensibly in exchange for some other lands belonging to the latter.

As the *bona fides* of the transaction were doubtful, the Government directed in 1903 that the village should be resumed immediately and placed under Muzrai management. Krishnachar's son Jayaramachar presented a review petition, which was dismissed in 1905, but on presentation of a further petition supported by new allegations and fresh documents, tending to show that the alienation was made over 100 years previously, the Government in 1906 accepted the contention and ordered the restoration of the village to Jayaramachar.

The Agent of the Sri Uttaradi Matt now seeks a reconsideration of this order.

The genuineness of the deed relied on by Jayaramachar is in the opinion of Government open to grave doubt. There is no evidence worthy of acceptance that the village came into the possession of the alienee prior to 1864-65. The fact that he failed to put forward any such claim at the Inam Settlement is also strongly against him. That being so, there can be no question that the Inam Rules of 17th November 1877 are directly applicable to the case in question and the village is liable to summary resumption. Out of consideration, however, for the alienee's long enjoyment, the Matt will be offered the choice of recovering the village on payment to the alienee of a reasonable compensation to be fixed by the Muzrai Superintendent with the approval of Government. In default of payment, the village will be subject to full assessment and left in the possession of the alience, the extra revenue being made over to the Matt as a cash grant.

Agent of Sri Uttaradi Matt.		Satya Sandhachar (since deceased) through his son Ramachar.

Subject.

Petition No. 657, dated the 3rd October 1910, from the Agent of Sri Uttaradi Matt, praying for the restoration to the Matt, of the inam village of Adavikatenahalli in the Maddagiri Taluk, endowed to Sri Uttaradi Matt.

Decision.

The case was finally heard by Government on the 4th March 1915. The contending parties were present in person and were also represented by Advocates.

It is alleged that the inam village of Adavikatenahalli was given away to the respondent Satya Sandhachar in exchange for an inam land that belonged to the latter in Dhonji village in the Bombay Presidency. While the Agent of the Matt denies the whole transaction and claims that the Dhonji lands belong to and were obtained by the Matt by gift, the alienee's son Ramachar wants to make out that the alleged exchange was so far back as the year Paingala (1797-98) and has produced a number of documents in support of his contention. These documents are apparently fabricated since Satya Sandhachar himself made no reference to them in his statement given before the Amildar of Dodballapur on 14th October 1903 and did not then claim an earlier origin for his title than 1860 or so, and, what is more, no claim whatever seems to have been put forward by him at the Inam Settlement.

Under the circumstances, the Inam Rules of 17th November 1877 are clearly applicable to the case in question and the village is liable to summary resumption especially as no condition of service to the Matt was attached to the alienation. Out of consideration, however, for the alienee's long enjoyment, the Matt will be offered the choice of recovering the village on payment to the alienee of a reasonable compensation to be fixed by the Muzrai Superintendent with the approval of Government; and in default of payment the village will be subjected to full assessment and left in the possession of the alienee, the extra revenue being made over to the Matt as a cash grant.

Government Order No. 4444—Genl 883, dated the 8th September 1879, circulating the instructions of the Government of India on the procedure to be followed with regard to the dismissal of Government servants.

Order No. 392-444—E. A. G. 157, dated 31st August 1917.

The accompanying rules are prescribed in order to regulate enquiries into alleged misconduct on the part of public servants. They apply primarily to officers who cannot be removed without the sanction of Government but should be followed *mutatis mutandis* in the case of other Government servants also. In the latter case, reports should be submitted to the authority exercising powers of appointment and dismissal.

No. 392-444—E. A. G. 157, dated 31st August 1917.

RULES TO REGULATE ENQUIRIES INTO THE CONDUCT OF PUBLIC SERVANTS.

Preliminary Enquiry.

In case of alleged grave misconduct on the part of an officer in connection with his public duties, an informal and confidential enquiry should, in the first instance, be made by an official superior or by an officer specially deputed for the purpose by Government.

2. Such enquiry should not be undertaken under the orders of any authority lower in rank than a Head of a Department or Deputy Commissioner and its institution and result should invariably be reported to Government confidentially through the proper channel with a distinct recommendation as to the further action, if any, necessary.

3. No enquiry should be undertaken precipitately or on light and insufficient grounds.

4. If the preliminary investigation discloses misconduct of a grave character, Government will decide whether the matter should be dealt with departmentally or whether a prosecution should be instituted. When it is decided to prosecute the officer, he shall be placed under suspension.

5. A prosecution will not generally be instituted unless the misconduct established is such that it cannot be adequately dealt with departmentally.

Judicial Enquiry.

6. If the prosecution results in the conviction of the officer, departmental punishment will generally be awarded without further enquiry.

7. If the officer is acquitted, he will be entitled to reinstatement, provided the acquittal is *bona fide* on the merits of the case and not in consequence of a mere technicality, a legal flaw in the evidence, collusion with the witnesses or some similar circumstance.

Departmental Enquiry.

8. If a departmental enquiry is ordered, it will be held in *quasi judicial* form by an officer nominated for the purpose.

9. When the Government shall think fit to conduct the prosecution, they may nominate some person to conduct the same on their behalf.

10. The enquiring officer should cause the substance of the imputations to be drawn into distinct articles of charge and a copy of the same and the list of the documents by which each charge is to be sustained should be delivered to the accused officer, at least a week before the beginning of enquiry.

11. The oral and documentary evidence in support of the charges should be placed on record on a fixed date of hearing in the presence of the officer accused who may be given the right to cross-examine the witnesses, and thereafter the accused officer should be required to make his defence orally or in writing as he shall prefer. For this purpose, he shall be allowed access to the papers in the presence of the enquiring officer or an officer deputed by him for the purpose and may also be given copies at the discretion of such officer.

12. The evidence, oral and documentary, for the defence should be then received and the defence witnesses may, if necessary, be cross-examined by the prosecutor.

13. The enquiring officer should take notes in English of all the oral evidence, which should be read aloud to each witness by whom the same was given and, if necessary, explained to him in the language in which it was given.

14. The enquiring officer is not bound by the technical rules of the Evidence Act, but the enquiry should be conducted on the universally recognized canons of fair dealing. All evidence which in the opinion of the enquiring officer conduces to moral conviction, should be admitted.

15. Witnesses should not be examined on oath. Advocates and Pleaders should not be allowed to appear without the previous permission of the officer holding the enquiry.

16. After the close of the enquiry, the enquiring officer should forthwith submit to Government through the proper channel a confidential report of the enquiry and send with the record thereof his finding upon each of the articles of charge separately, with such observations as he may think fit, on the whole case.

17. The Government on consideration of the report of the enquiring officer and remarks of the authorities, if any, through whom the report is submitted, may proceed to pass orders or direct further evidence to be taken or obtain further explanation from the officer whose conduct is in question. They may also order additional articles of charge to be framed, in which case the enquiry into the truth of such additional articles should be made in the same manner as with respect to the original charges.

No. 392-444—E. A. G. 157, DATED 31ST AUGUST 1917.

DISPOSAL OF CASES WITHOUT ENQUIRY.

18. The above rules do not apply to petty cases of disobedience, insubordination and the like, which are usually disposed of by correspondence. But the authority recommending punishment in such cases should take care to see that the officer concerned knows with what he is charged and that he has had an opportunity of explaining or denying the charges.

19. These rules do not apply also to the officers who abscond with an accusation impending against them, in respect of whose conduct therefore no enquiry is possible.

20. In the case of an officer on whose conduct strictures have been passed at a judicial trial, the necessity for a departmental enquiry will depend upon whether the imputation against the officer was directly in issue in the judicial proceedings and whether he had full opportunity of explaining his conduct.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Letter No G C 154, dated the 11th September 1916, from the Sanitary Commissioner with the Government of Mysore, urging the early execution of the scheme for the improvements of the Shimoga town as already outlined in October 1910

(2) Correspondence ending with letter No 196, dated the 15th November 1916, from the President, Shimoga Town Municipality, forwarding, duly countersigned, a project amounting to Rs. 85,495 for improving the Shimoga town and the surface drainage and observing that much more yet remains to be done for the complete drainage of the town

(3) Note No. D 66, dated the 9th February 1917, by the Secretary, Public Works Department, submitting the above project for sanction

(4) G O No 7176-8—MI 196-14-11, dated the 14th May 1917, approving the proposal of the Deputy Commissioner, Shimoga District, for raising a loan of one lakh of rupees in the open market at 5 per cent interest, the loan to be repayable in 25 years for carrying out the drainage project of the town, and stating that a sum of Rs 20,000 will be advanced as a loan to the Municipal Council for expenditure during 1917-18

Order No. 1731-5—P. W. 8645-9, dated 13th August 1917

For want of an efficient system of drainage, the sanitation of the Shimoga town has been deteriorating. The surface drainage gets water-logged during the rainy season. Sanitary improvements being urgently called for Government have been pleased to sanction the accompanying project for the improvement of the town and the surface drainage for Rs 85,495

2. The main features of the scheme are —

(1) Opening a road along the bank of the Tunga river between the backyards of the houses and the river, with culverts at crossings of drainage and flights of steps at important places

(2) Opening cross roads in the town to avoid congestion.

(3) Constructing storm water drains

(4) Acquisition of properties

3. A proper sewerage scheme will have to be undertaken as soon as the above items of work are completed.

4. To meet the cost of these works as well as other improvements, Government have permitted the Municipality to raise a loan of one lakh of rupees at 5 per cent interest. Government have also agreed to advance Rs 20,000 as a loan for expenditure during 1917-18.

5. As the work is reported to be urgent, the Superintending Engineer is requested to put the work in hand at once and complete the same as early as practicable.

6. The President of the Shimoga Town Municipality is requested to place, at the disposal of the Public Works Department, the amount sanctioned for expenditure during the year 1917-18.
